

Significant Precursor Compliance Cases

11106 H&S to include ephedra compounds.

The Precursor Compliance Unit has determined the 11106 H&S regulatory section includes ephedra and Ma Huang products as containing ephedrine/pseudoephedrine compounds. This requires any distributor of these products to report transactions and have a precursor business permit.

Rite-Aid served with Notice of Violations.

Deputy Attorney General Alan Mangles has filed a Notice of Violations to Rite-Aide for the undercover purchases of pseudoephedrine compounds over the three package limit at four different store locations.

Tack and feed supply store in violation of 11107 H&S.

An investigation is currently being conducted into a tack and feed store in Stockton. Through the tracking of cash sales, auditors have found the store in violation of over 60 misdemeanor violations of 11107 H&S. The San Joaquin County District Attorney's Office is awaiting the final analysis of the documents so it can proceed with filing a criminal complaint against the business.
